Mabel Katz - 'The Easiest Way'

An inspiring session

for inner peace, awareness, confidence and love for you and your company.

Discover How To Obtain Purpose & Clarity That Will Help You Succeed in Business

'Last year I met Mabel Katz and I was fortunate enough to have a good long conversation with her on behalf of a business magazine, focused on the new world. In a short period of time she managed to touch me deeply. A few simple insights and techniques can resolve so much hidden heart ache. I was amazed and most of all happy! I am most honored that she will be my guest while she is visiting the Netherlands and that she wants to do this workshop with us. It is a special opportunity for a unique learning curve.'

After you've discovered what your dreams are, you often face many obstacles that can keep you from the actual realization of them. Mabel Katz gives you personal insight and she also identifies your bottlenecks and offers you a wonderful technique to solve them. She works closely together with Hawaiian Dr. Ihaleakalá Hew Len, and the teachings and tools of Ho'oponopono. Ho'oponopono stands for a process of self-identity through repentance, forgiveness and transmutation that ends suffering.

When you let go, you give permission so the memories of suffering can be erased, so now you have an empty space (void) that can now be filled with Inspiration, right ideas, right solutions, right answers come, so that whatever is right and perfect for you just comes effortlessly.

At the end of this day you will feel at peace and have a greater sense of clarity and self awareness. As you discover the tools to live at your Zero Frequency, you will experience a joy for life and inner strength that supports you in taking action towards your plans and goals for living the life you deserve.

Register today for this inspiring training, for enterprising people in a world that is changing rapidly.

Meaning in Business

'The economic commotion makes us aware of alternative paths. We want to go back to the basics, where it is safe and familiar. But we also need to go forward. For which we need our heart and our skills. We are heading towards a more holistic way of living and business. Here the power of your company is not only determined by your own radiance, but also by that of your associates.

Personal development attributes to business success. We have an immense knowledge of matter. But the basic knowledge in our heart has often become hidden by life itself in this capitalist society. When we let the heart speak again, we will shine from inside. That brings a smile on the faces of you, your associates and your customers.

This innovative way of enterprising and exchanging thoughts demands a conversation with your inner self. Which truth does our own heart speak? What does our intuition say? This passion forms the basis for a new way of living and working. And it is simple to recover it again. You are already very close.'

Ho'oponopono.

Smile and Enjoy,
Mabel Katz & Ellen te Brake
